plying for an increase in freight rates in brief is as follows: Expenses have in-creased so much faster than revenues that the net operating income of the roads for 1913 was \$16,311,000 less than it was in 1910, notwithstanding the fact that \$650,-000,000 new money was put into these railway properties in that time. Of the three items which make up between \$0 and \$5 per cent of the expenses of op-erating a railroad \$410.734,001 was seent erating a railroad \$410.734.001 was stent for transportation charges in 1910 Maintenance of equipment consumed \$195.727.

105 and maintenance of way \$145.273.335.

As total expenses in 1910 amounted to \$500.662.522, these three items accounted for more than fifteen-sixteenths of the money paid out. These expenses increased for more paid out. These expenses increased steadily year by year until in 1913 transportation charges took \$92,000.000 more, maintenance of equipment \$51,000.000 more, maintenance of way \$35, no 000.000 more. Taxes increased from \$45,000.000 more. Taxes increased from \$45,000.000 mission, but they added that such financing was probable.

Debentures Planned.

PUBLIC UTILITIES.

The return of even comparative activity to the stock market has served to lift a little the depressing gloom which has prevailed in New Street, and the future is not now regarded as quite hopeless. In some quarters the change was received with such exagerated enthusiasm that one would think that "old times" had some back. But the breaking of the dead of the professionals toward the trend of other professionals toward the trend of the professional state of the position to the position to Supt. Van Tuyl's plan are the Samans Institution.

The return of even comparative activity to the declaration of the professional state of the professional state of the professional state of the professional state of the trend of the professional state of the trend of the professional state of the p
